

SUBJECT TO BD APPROVAL DRAFT COPY
SPRINGFIELD BOARD OF EDUCATION
OCTOBER 6, 2014
REGULAR MEETING

The Springfield Board of Education is committed to providing high quality, efficient educational programs through which all students achieve the New Jersey Core Curriculum Contents Standards. Every effort is made to ensure that the district's certificated and support personnel are among the best in their fields.

The staff and Board of Education are dedicated to maintaining excellence in the delivery of child-centered educational programs. Very simply stated, in Springfield...SCHOOLS ARE FOR KIDS!

A Regular Meeting of the Board of Education of the Township of Springfield in the County of Union, New Jersey, was held at the Jonathan Dayton High School Instructional Media Center-First Floor on Monday, October 6, 2014 at 7:45 P.M.

RESOLUTION AUTHORIZING SPRINGFIELD TOWNSHIP BOARD OF EDUCATION TO ISSUE A REQUEST FOR BID FOR FINANCING OF THE ENERGY SAVINGS IMPROVEMENT PROGRAM THROUGH THE ISSUANCE OF ENERGY SAVINGS OBLIGATION AUTHORIZED AS A LEASE PURCHASE PURSUANT TO NJSA 18a:18a-4.6 AND 18a:24-6.1

WHEREAS, the purpose of an Energy Savings Plan is to promote energy efficiency initiatives that result in lower energy and water related cost and improve services within the public schools under the Energy Savings Improvement Program; and

WHEREAS, the Springfield Township Board of Education has authorized that certain energy savings improvements be implemented including the installation and or retrofit of energy conservation measures for certain facilities located throughout the school district in the amount of \$2.375 million dollars; and

WHEREAS, in order to provide financing for the energy improvements, it is necessary to issue a Request to Bid seeking a lessor to provide financing pursuant to a tax exempt lease purchase agreement.

NOW THEREFORE BE IT RESOLVED, that the Springfield Township Board of Education authorizes the issuance of a Request to Bid seeking a lessor to provide financing pursuant to a tax-exempt Lease Purchase Agreement for energy conservation measures being undertaken, subject to General Counsel review and School Board Administrator/Board Secretary for the Springfield Township Public Schools.

POLICY: STUDENT NUTRITION

The board believes that children need access to healthful foods and opportunities to be physically active in order to grow, learn, and thrive, and that good health fosters student attendance and education.

Obesity rates have doubled in children and tripled in adolescents over the last two decades, and physical inactivity and excessive calorie intake are the predominant causes of obesity. Heart disease, cancer, stroke, and diabetes are responsible for two-thirds of deaths in the United States, and major risk factors for those diseases, including unhealthy eating habits, physical inactivity, and obesity, often are established in childhood. Further, the items most commonly sold from school vending machines, school stores, and snack bars include low-nutrition foods and beverages, such as soda, sports drinks, imitation fruit juices, chips, candy, cookies, and snack cakes.

To promote healthful behavior in the school, the board is committed to encouraging its students to consume fresh fruits, vegetables, low fat milk and whole grains. The board is also committed to encouraging students to select and consume all components of the school meal.

In order to promote and protect children's health, well-being, and ability to learn, the board is committed to providing school environments that support healthy eating and physical activity and will ensure that:

1. All students will have opportunities, support, and encouragement to be physically active on a regular basis;
2. Foods and beverages sold or served at school will meet the nutrition recommendations of the U.S. Dietary Guidelines for Americans, and the USDA nutrition standards for National School Lunch, School Breakfast and/or After School Snack Programs. The district will regulate the types of food and beverage items offered outside the federal meal requirements, such as ala carte sales, vending machines, school stores, and fundraisers;
3. All students will be provided with adequate time for student meal service and consumption in a clean, safe, and pleasant dining environment. Lunch and recess or physical education schedules will be coordinated with the meal service;
4. To the maximum extent practicable, all schools in our district will participate in available federal school meal programs (including the School Breakfast Program, National School Lunch Program including After-School Snack Programs, Summer Food Service Program, and Child and Adult Care Food Program);
5. Schools will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services; and
6. The board will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing district-wide nutrition and physical activity policies.

All reimbursable meals shall meet federal nutrient standards as required by the U.S. Department of Agriculture Child Nutrition Program regulations. All items served, as part of the After School Snack Program shall meet the standards as outlined within this policy.

The following items may not be served, sold or given out as free promotion anywhere on school property at anytime before the end of the school day:

1. Foods of minimal nutritional value (FMNV);
2. All foods and beverage items listing sugar, in any form, as the first ingredient;
3. All forms of candy.

Schools shall reduce the purchase of any products containing trans fats. (Federal labeling of trans fats on all food products is required by January 1, 2006.)

All snacks and beverage items sold or served anywhere on school property during the school day, including items sold in a la carte lines, vending machines, snack bars, school stores and fundraisers shall meet the following standards.

1. Based on manufacturers nutritional data or nutrient facts labels:
 - a. No more than 8 grams of total fat per serving with the exception of nuts and seeds
 - b. No more than 2 grams of saturated fat per serving
2. All beverages shall not exceed 12 ounces, with the following exceptions:
 - a. Water
 - b. Milk containing 1% or less fat

In elementary schools:

1. 100% of all beverages offered shall be milk (plain or flavored) containing one percent or less fat, water or
2. 100% fruit or vegetable juice;
3. Serving size for fruit or vegetable juice shall not exceed 8 ounces.

In middle and high schools:

1. At least 60% of all beverages offered, other than milk and water, shall be 100% fruit or vegetable juices
2. Serving size for fruit or vegetable juice shall not exceed 12 ounces;
3. No more than 40% of all ice cream/frozen desserts shall be allowed to exceed the above standards for sugar, fat, and saturated fat.

Every effort shall be made to assure food and beverages served during special school celebrations or during curriculum related activities comply with this policy, with the exception of foods of minimal nutritional value as defined by USDA regulations. If food is necessary for approved large group snack, then these products must be purchased through the board approved food service in the district and must conform to the district's nutritional policy. Food brought in from outside sources will not be permitted to be served to students during the school day.

This policy does not apply to medically authorized special needs diets pursuant to federal regulations, school nurses using FMNV's during the course of providing health care to individual students or special needs students whose Individualized Education Plan (IEP) indicates their use for behavior modification.

Adequate time shall be allowed for student meal service and consumption. Schools shall provide a pleasant dining environment. The Board recommends that physical education or recess be scheduled before lunch whenever possible.

The district's curriculum shall incorporate nutrition education and physical activity consistent with the New Jersey Department of Education Core Curriculum Content Standards.

The chief school administrator will specifically address the issue of biosecurity for the school food service. Biosecurity may be part of the plans, procedures and mechanism for school safety.

The school district's curriculum shall incorporate nutrition education and physical activity consistent with the New Jersey Department of Education Core Curriculum Standards. The Board of Education is committed to promoting the Nutrition Policy with all food service personnel, teachers, nurses, coaches and other school administrative staff so they have the skills they need to implement this policy and promote healthy eating practices. The Board will work toward expanding awareness about this policy among students, parents, teachers and the community at large.

The chief school administrator shall develop regulations consistent with this policy, including a process for measuring the effectiveness of its implementation, and designating personnel within each school with operational responsibility for ensuring the school is complying with the policy.

SPRINGFIELD PUBLIC SCHOOLS
Springfield, New Jersey 07081

POLICY: NEEDS ASSESSMENT OF INDIVIDUAL STUDENTS

Each pupil shall be assessed upon entrance into the district's schools and annually thereafter, The annual assessment shall be in terms of personal growth and progress toward district goals and objectives.

Procedures to implement a program of individual pupil needs assessment shall include but not be limited to:

- A. Identifying district needs as the basis for development of mandated goals; development of staff inservice programs; selecting and approving instructional materials; staffing;
- B. Identifying and determining the needs of:

-
- 1. Gifted and talented pupils;
 - 2. Disruptive pupils;
 - 3. Disaffected pupils;
 - 4. Potential dropouts;
 - 5. Students who exhibit one or more potential indicators of dyslexia or other reading disability;
 - 6. Pupils who require basic skills improvement programs;
 - 7. Pupils with limited English proficiency;
 - 8. Pupils who may require formal referral to the child study team for classification.
 - 9. At-risk pupils

Policies addressing these specific groups and appropriate educational programs for them are listed in the cross references to this policy.

Parents/guardians shall be informed of any specific needs identified for their child. Such identified needs shall form the basis of development of educational programs to meet them. Special attention shall be given to the assessment of and programs developed for students identified as having special needs.

- C. Disseminating results of such assessments to parents/guardians and to appropriate staff and state and federal agencies as required without invading the privacy of the individual pupil.

The chief school administrator/designee shall review all individual assessment procedures annually to ensure that they serve the purposes for which they are intended. At all times, these procedures shall be in full conformity with federal and state law.

Dyslexia Assessment

“Dyslexia” means a specific learning disability that is neurological in origin. It can be characterized by difficulties with accurate and/or fluent word recognition and by poor spelling and decoding abilities. Difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge (N.J.A.C. 6A:14-1.3).

The board shall select and implement age-appropriate screening instruments for the early diagnosis of dyslexia and other reading disabilities.

The board shall ensure that each student enrolled in the school district who has exhibited one or more potential indicators of dyslexia or other reading disabilities is screened for dyslexia and other reading disabilities using a screening instrument selected by the board. The screening shall be conducted no later than the student's completion of the first semester of the second grade.

Students newly enrolling in the district or transferring into the district in kindergarten or grades one through six who exhibit potential indicators of dyslexia or other reading disabilities and who have not been previously assessed, shall be assessed using the board selected age-appropriate screening instruments. Students shall be assessed at the same time as other students enrolled in the student's grade if feasible. If other students enrolled in the student's grade have previously been screened, the assessment shall be conducted within 90 calendar days of the date the student is enrolled in the district.

Potential indicators of dyslexia or other reading disabilities include, but are not be limited to:

- A. Difficulty in acquiring language skills;
- B. Inability to comprehend oral or written language;
- C. Difficulty in rhyming words;
- D. Difficulty in naming letters, recognizing letters, matching letters to sounds, and blending sounds when speaking and reading words;
- E. Difficulty recognizing and remembering sight words; consistent transposition of number sequences, letter reversals, inversions, and substitutions; and
- F. Trouble in replication of content.

The screening shall be administered by a teacher or other teaching staff member properly trained in the screening process for dyslexia and other reading disabilities. If the results of the

assessment substantiate that the student possesses one or more potential indicators of dyslexia or other reading disabilities, the student shall receive a comprehensive assessment for the learning disorder. If the diagnosis of dyslexia or other reading disability is confirmed by the comprehensive assessment, appropriate evidence-based intervention strategies shall be provided to the student, including intense instruction on phonemic awareness, phonics and fluency, vocabulary, and reading comprehension.

**SPRINGFIELD PUBLIC SCHOOLS
Springfield, New Jersey 07081**

POLICY: PHYSICAL EDUCATION AND HEALTH

The Board directs that the district's curricular and extracurricular programs of physical education and activities comply with the district's Affirmative Action resolution and Equity Plan for school and classroom practices as stipulated in policies 2224, 5145.4, 6121 and 6145 in this manual. The Board shall ensure that the comprehensive health and physical education curriculum addresses all elements required by the Core Curriculum Content Standards.

In general, physical education classes shall not be divided on the basis of gender. The quality and quantity of teachers, equipment and facilities shall be equivalent among the schools and comparable from level to level, taking into account the needs of the pupils.

Members of district interscholastic athletic teams may be excused from participation in the physical activities part of their physical education program without loss of graduation credit on the request of their coach on any day on which they are designated to participate in a regularly scheduled game. The Chief School Administrator shall approve procedures by which coaches will inform the physical education department, on the day in question, of the specific pupils to be excused.

The Superintendent will consider on a case-by-case basis requests from pupils or their parents/guardians in the case of minors for permission to satisfy the physical education requirement through an alternative program of athletics or physical education activities that meets the requirements of law and is consistent with the district's physical education program goals and instructional objectives.

Dating Violence

For students in grades 7 through 12, physical education and health curriculum will include the topic of dating violence. "Dating violence" means a pattern of behavior where one person threatens to use, or actually uses physical, sexual, verbal, or emotional abuse to control a dating partner.

The dating violence education shall include information on the definition of dating violence, recognizing dating violence warning signs, and the characteristics of healthy relationships.

Upon written request to the school principal, a parent/legal guardian of a student less than 18 years of age shall be permitted within a reasonable period of time after the request is made, to examine the dating violence education program instruction materials developed by the school district.

The purpose of the dating violence information is to help prevent dating situations from becoming

unsafe and to help educate young people on constructive ways to resolve conflicts in personal relationship.

To be consistent with P.L. 2011, c. 64 (N.J.S.A. 18A:35-4.23a, school policy, procedures and curriculum will include the following information:

- A. Dating violence will not be tolerated;
- B. Dating violence reporting procedures;
- C. Guidelines for responding to at-school incidents of dating violence;
- D. Discipline procedures specific to at-school incidents of dating violence;
- E. Warning signs of dating violence; and
- F. Information on safe, appropriate school, family, peer, and community resources available to address dating violence shall also be included within the curriculum.

Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillator (AED)

The board of education shall provide instruction in cardiopulmonary resuscitation and the use of an automated external defibrillator to each student during high school (in grades 9, 10, 11 or 12). The instruction shall be provided to each student prior to graduation as part of the district's implementation of the Core Curriculum Content Standards in Comprehensive Health and Physical Education. The board may select a no-cost, non-certification instructional program to meet this requirement.

The instruction provided shall:

- A. Be modeled from an instructional program established by the American Heart Association, American Red Cross, or other nationally-recognized association with expertise in instruction in cardiopulmonary resuscitation and the use of an automated external defibrillator; and
- B. Include a hands-on learning component for each participating student.

SPRINGFIELD PUBLIC SCHOOLS
Springfield, New Jersey 07081

POLICY: GRADUATION REQUIREMENTS

In order to be graduated from the Springfield District high school, and receive a state-endorsed Board of Education diploma, a pupil must:

- A. Meet both state and district proficiency standards in the core curriculum content areas; achieve or exceed passing grade on HSPA;
 - B. Complete successfully any course requirements stated in the administrative code, unless those of the district are greater, in which case the district's standard must be met. The proficiencies required must include the Core Curriculum Content Standards approved by the State Board of Education;
 - C. Select and complete successfully enough elective credits to meet the district minimum of 130 credits.
-

Successful completion means that the pupil has demonstrated the degree of proficiency required by the district to indicate achievement of the district goals for the particular course, and has attended the required number of course sessions.

Transfer pupils must meet all state and local requirements in order to receive a diploma.

The Chief School Administrator shall put into effect the procedures necessary to assess each pupil upon entry into the system, and, annually thereafter, to identify those pupils not meeting the state or district proficiency requirements. He/she shall develop the programs necessary to remedy these deficiencies at the lowest possible grade level.

Basic Skills

Pupils who do not pass the NJASK8 shall be provided appropriate remediation.

Twelfth-grade pupils who have satisfied all other graduation requirements but have repeatedly failed the statewide examination shall receive an alternate assessment as provided by law.

Pupils with Limited English Proficiency

Pupils with limited English proficiency must be provided with the program opportunities required by law, and must fulfill the regular state and district requirements for graduation.

Special Education Pupils

A disabled pupil must meet all state and local high school graduation requirements in order to receive a state-endorsed high school diploma unless exempted in his/her IEP with the written approval of the Chief School Administrator.

A pupil who qualifies may take the Alternate Proficiency Assessment, if alternate requirements for graduation have been specified in his/her IEP.

By June 30 of a disabled pupil's last year in the elementary program, the pupil's case manager, parent/guardian and teacher(s) shall meet to review the instructional guide and basic plan of the pupil's IEP in view of the transition to the secondary program. Input from appropriate staff from the secondary school shall be part of the review.

The basic plan of the IEP for the pupil exiting the elementary program will address all the elements required in the administrative code. The description of the educational program will include exemptions, if any, from regular education program options or state and local graduation requirements including HSPA, along with the rationale for the exemptions. The exemptions must be approved in writing by the Chief School Administrator.

Required reviews of the IEP shall continue to address graduation requirements and shall explain why the proficiencies required for graduation are not part of the IEP.

Because graduation with a state-endorsed diploma is a change of placement that requires written notice, all procedures described in the administrative code shall be followed scrupulously. Procedures shall include written notice to parents/guardians that includes a copy of procedural safeguards published by the State Department of Education and opportunity for mediation or a due process hearing.

Proficiency

In consultation with appropriate professional staff, the Chief School Administrator shall develop and present to the Board for adoption indicators of achievement and standards of proficiency and attendance demonstrating successful completion of each course offered at every level of the high school. The proficiencies listed shall include but not be limited to those approved by the State Board of Education.

The subject matter and standards of proficiency shall be articulated with the district's elementary schools and with sending elementary districts.

In accordance with law, the Board of Education shall have copies of this policy distributed to all ninth-grade (or otherwise entering) pupils and their parents/guardians.

They shall also be informed as to the examinations, demonstrated proficiencies, course and credit hour requirements, attendance policies, and any other state and local requirements.

Proficiency requirements for each individual course shall be given to pupils on registering for the course.

The yearly program of studies for each pupil in the high school must be approved and signed by the parent/guardian, except in the case of 18-year-old pupils.

Early Graduation

Pupils who have clearly demonstrated a scholastic aptitude, an unusual readiness for the world of work, a financial need, or a serious health or family concern may be considered for early graduation. Minimal graduation requirements must be completed early. Approval must be obtained from the parents/guardians and the administration.

Individualized Student Learning Opportunities

The board shall establish a process to approve individualized student learning opportunities that meet or exceed the Core Curriculum Content Standards.

- A. Individualized student learning opportunities areas include, but are not limited to, the following:
 - 1. Independent study;
 - 2. Online learning;
 - 3. Study abroad programs;
 - 4. Student exchange programs; and
 - 5. Structured learning experiences, including, but not limited to, work-based programs, internships, apprenticeships, and service learning experiences.

- B. Individualized student learning opportunities based upon specific instructional objectives aimed at meeting or exceeding the Core Curriculum Content Standards shall:
 - 1. Be based on student interest and career goals as reflected in the Personalized Student Learning Plans;
 - 2. Include demonstration of student competency;
 - 3. Be on file in the school district and subject to review by the Commissioner or his or her designee.

To earn credit toward high school graduation for individualized student learning opportunities, the student shall successfully complete assessments that verify student achievement in meeting or exceeding the Core Curriculum Content Standards at the high school level. Achievement may be verified by assessments including standards achieved by means of the individualized student learning opportunities. Such programs or assessments may occur all or in part prior to a student's high school enrollment.

No assessments administered shall preclude or exempt student participation in applicable Statewide assessments at grades three through 12.

Pupil Enrollment in College Courses

The board shall make reasonable efforts to develop articulation agreements with New Jersey colleges and universities to facilitate the delivery of college credit courses to qualified pupils.

The board shall establish a process to approve post-secondary learning opportunities that may consist of Advanced Placement (AP) courses, College-Level Examination Program (CLEP), or concurrent/dual enrollment at accredited higher education institutions. Students shall receive credit for successful completion of an approved, accredited college course that assures achievement of knowledge and skills that meets or exceeds the Core Curriculum Content Standards.

The board shall determine eligibility requirements for these pupils and monitor the quality of the courses offered and college faculty who teach the courses.

Reporting and Monitoring

The chief school administrator shall report annually at a public meeting, not later than September 30, to the board and to the commissioner:

- A. The total number of students graduated in the aggregate and disaggregated according to subgroups described in federal law;
- B. The number of students graduated under the Alternative High School Assessment (AHSA) process;
- C. The number of students receiving state-endorsed high school diplomas as a result of meeting any alternate requirements for graduation as specified in their IEP's;
- D. The total number of students denied graduation from the 12th grade class;
- E. The number of students denied graduation from the 12th grade class solely because of failure to pass the High School Proficiency Assessment (HSPA) or Alternative High School Assessment (AHSA), based on the provisions of administrative code.

This information shall be reported to the board at a public meeting prior to the date prescribed by law.

The board shall review this policy annually and shall adopt all regulations required by law.
