The Date and Time the indoor or outdoor application took place: DATE 9/29/16 TIME 3:45pm

Description of the problem and the factors that qualified the problem as an emergency that threatened the health or safety of a student or staff member: Stinging Insects

If applicable, description of steps to be taken to avoid emergency use of pesticides for this problem in the future: N/A

Description of the possible adverse effects of the pesticide(s) as per the Material Safety Data Sheets for the pesticide(s) to be used, if available: Harmful if swallowed. Causes eye irritation.

Pesticide product label instructions and precautions related to public safety: Wash thoroughly after handling. Do not eat, drink or smoke when using this product.

Note: as required by law, we are advising you of the following statement:

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated: "Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure."

REMEMBER: Whenever a non-low impact pesticide is used on school property there is also a Restricted Entry Interval (REI) that begins when the pesticide application ends. This Restricted Entry Interval last for seven hours unless the product label uses NUMERIC LANGUAGE, e.g., 4hours or 12 hours; directing a longer or shorter period of time for Restricted Entry. If the product label does not discuss Restricted Entry the period of time defaults to seven (7) hours.
